

The PFM-42B2 (42" viewable area, measured diagonally) monitor replaced the award winning PFM-42B1 and supports a new plasma panel with increased brightness and contrast ratio.

Showcasing a high-resolution picture at 1024 x 1024 pixels and a stylish design, the PFM-42B2 plasma monitor is available in two bezel colors – charcoal gray and brushed silver. The monitors are extremely versatile – from the layout-free design to the range of input signals they can handle. The units are ideal for digital signage, exhibits, corporate lobbies, and presentation rooms.

Key Features

- 42" Plasma Monitor (viewable area measured diagonally)
- 1024 x 1024 Resolution 16:9 Panel
- Displays Standard Definition and High Definition Formats including 1080/60i/720/60P, 1080/24Psf, and 480/60p Video
